Preface

This volume collects original papers written by the speakers of a RIMS Symposium “Harmonic Analysis and Nonlinear Partial Differential Equations,” held at Research Institute for Mathematical Sciences, Kyoto University, in July, 2010.

The symposium “Harmonic Analysis and Nonlinear Partial Differential Equations” has been held annually at RIMS since 1997.

Its purpose is to provide the opportunity for specialists in various areas of harmonic analysis and nonlinear partial differential equations to exchange ideas and the latest developments and to build networks.

Financial support from RIMS and JSPS Grant-in-Aid for Scientific Research (S) #20224013 and (A) #21244010 is gratefully acknowledged.

Thanks are due to the referees for their efficient work.
